PROFESSIONAL EXPERIENCE

LinkedIn & Instagram

San Francisco, USA

AI & Tech Content Creator

Aug' 20 - Present

- Create high-performing short-form educational content across Instagram and LinkedIn, consistently breaking down AI tools, productivity workflows, and product tutorials for an audience of **100K+ learners**.
- Self-produce end-to-end video content from scripting, filming, editing, and visual design enabling fast, high-quality product explainers, feature demos, and community-ready educational assets.

Persona

San Francisco, USA

Product Deployment Strategist

Oct' 24 - Present

- Owned post-deployment strategy for 40+ enterprise and SMB customers, managing **full customer lifecycle** from onboarding through expansion, ensuring product adoption and retention.
- Designed and delivered **onboarding and training programs** for new customers, reducing time-to-value and enabling clients to become self-sufficient Persona champions, while creating reusable playbooks for one-to-many adoption.
- Conducted **executive business reviews** and analyzed usage data to surface **product insights**, connecting customer feedback to cross-functional teams across product and engineering.

Wonsulting

Remote, USA

AI Product Manager

Feb' 24 - Oct' 24

- Launched an **AI-powered Job Tracker with 4,000+ MAUs**. Implemented features like a flexible resume builder, personalized cover letters, and customized networking messages, increasing user engagement by 15%.
- Collaborated with **engineering, design, analytics and marketing** teams to design Figma prototypes, manage JIRA boards for 5+ sprints, define product success metrics, test products, and execute marketing campaigns.
- Managed a **technology product roadmap** for ResumAI, CoverLetterAI, and NetworkAI, focussing on reducing churn rate, driving product growth and releasing new features.

The Washington Post

Boston, MA

Product Manager Intern

May' 23 - Aug' 23

- Conducted **market and competitor analyses**, identifying critical gaps in structured data and live blogging solutions market, leading to conceptualisation and implementation of new product features.
- Facilitated over **20 stakeholder interviews** to gather insights into clients needs and preferences, shaping the long-term product roadmap.

LinkedIn

Ithaca, NY

Student Consultant (APM)

Jan' 23 - May' 23

- Analysed Gen-Z behaviour and proposed strategies to increase LinkedIn Premium's subscription revenue by 10% through analyzing **user behavior** trends via **interviews and surveys** involving over 500 students.
- Utilized advanced analytical techniques, including segmentation and cluster analysis with tools such as SPSS and Conjoint Analysis, to derive meaningful user segments for optimizing product strategy.

PATENT

Mood Based Lighting System

[Patent Number: 333618-001]

Developed a system that uses sentiment analysis to detect user mood and dynamically adjusts the ambient lighting to enhance emotional well-being.
