

MD AKRAM HOSSAIN, MBA, A-CSPO®, CBAP®

Ontario, Canada | mdakramhp@gmail.com | +1-647-830-3956

PROFESSIONAL SUMMARY

Product Management professional with 10 years of experience delivering enterprise platforms, global implementations, and operational transformation across healthcare, pharma, finance, and supply chain domains. Currently supporting Johnson & Johnson's MedTech Anaplan ecosystem across GTN, ORCOGS, and IBP, enabling FP&A, forecasting, demand planning, and scenario modeling. Expertise across EPM (Anaplan), EHR (Epic), and ERPs (SAP, Workday, PeopleSoft). Proven leader of global cross-functional teams delivering complex enterprise solutions using Agile methodologies, improving planning readiness, and driving continuous improvement.

SKILLS

Product Management: Technical Product Ownership, AI Product Management, Product Roadmap, Product Strategy, Product Development Lifecycle, GTM Strategy, Financial Modeling, SaaS, Voice of the Customer (VOC), Business Case Development, KPI Design, Stakeholder Management, Contract Negotiation, Budgeting, FP&A, Supply Chain Planning, Continuous Improvement

Technical & Tools: EPM Anaplan (Certified Professional Model Builder), ERP (SAP S4/HANA, Workday, PeopleSoft), EHR (Epic), Informatica, CTRL-M, Jira, Confluence, Visio, Figma, Miro, Ariba, GenAI, AI/ML, Advanced Analytics

Agile Delivery & Analytics: Agile / Scrum, User Stories, User Journeys, Human Centered Design, Process Mapping, Backlog Prioritization, Release Management, Defect Triage, SQL, Power BI, Tableau, Qlik, TOSCA

Regulatory & Quality: Product Development with Quality Management, Regulatory Awareness, Risk Management

PROFESSIONAL EXPERIENCE

Consultant, Product Analyst | Johnson & Johnson (*client*)

Jun 2024 – Present

- Support end-to-end EPM Anaplan product implementation for MedTech Commercial GTN, ORCOGS, and IBP models, enabling global FP&A, planning cycle preparation, forecasting, reporting, and supply chain processes across J&J.
- Partner with Directors, Technical Product Owners, Data & Business Product Owners, Product Analysts, Architects, Developers, & Testing teams to convert business priorities into scalable solutions, validating impact & ensuring continuous improvement of solutions.
- Own product backlog refinement and sprint execution, redesign process-flows, write detailed user stories with acceptance criteria, user journeys, test cases, release readiness, and build initiatives in line with the roadmap.
- Lead technical & functional TAT, BST & UAT defect triage, root cause analysis, & solutioning sessions; reducing critical test cycle issues.
- Coordinate offshore teams across 5 time zones while mentoring 2 junior Product Analyst Consultants, improving execution consistency and sprint throughput.
- Deliver enhancements as per stakeholder requirements, improving planning and forecasting accuracy.

Product Owner & Product Manager | SprintLab Digital, Canada

Sep 2023 – May 2024

- Owned end-to-end roadmap and delivery for the Afroshop digital marketplace and driver app for MVP launch in GTA market.
- Led team of 2 business analysts, 4 developers, 2 UX designers, and 3 QA Testers.
- Negotiated with external vendors, documented driver app SOPs, and performed A/B testing for API integrations, reducing operational cost by 40% and improved onboarding efficiency by 30%.
- Expanded partner pipeline by 25% through targeted outreach & competitive benchmarking to support MVP launch.

Manager, Business Operations | OhioHealth, USA

Nov 2019 – Aug 2023

- Led enterprise operations and systems improvement initiatives across 3 hospitals, integrating Epic EHR systems.
- Managed multi-functional teams across scheduling, billing, operations, and analytics.
- Increased physician block utilization by 35% through Epic workflow enhancements, reducing clinical documentation time by 15%.
- Built financial and operational dashboards (leveraging Qlik, Epic SlicerDicer), increasing compliance with surgical KPIs by 20%.
- Achieved \$1M+ savings and improved workforce capacity planning by 40% during COVID-19 across 3 hospitals.
- Reduced surgical supply errors by 60% by mapping workflows and implementing a color-coded stock replenishment system.

Supply Chain Analyst | OhioHealth, USA

Feb 2018 – Nov 2019

- Supported PeopleSoft to Workday ERP transformation for procurement and sourcing, increasing stakeholder satisfaction by over 45%.

- Implemented digital supply chain platform reducing search time for 120k+ supplies from 50 minutes to under 2 minutes.
- Contributed to \$1M+ contract savings through robust spend analytics, rebate validation, and supplier governance.

Junior Business Analyst | Capital University, USA

Jul 2017 – Jan 2018

- Supported launch of student portal MVP improving student course registration experience by 40%.
- Created workflows, training documentation, and reduced IT request turnaround by 50%.

Pricing Analyst, Finance Operations | Cardinal Health, USA

Dec 2016 – Jun 2017

- Resolved pharma chargeback and pricing discrepancies using SAP S/4HANA and IBM legacy systems, reducing pricing errors by 30%.
- Built rebate pricing dashboards supporting finance controls & improved data quality and EDI accuracy for supplier accounts.

Product Data Management Coordinator | Cardinal Health, USA

Aug 2016 – Nov 2016

- Managed cost validations for 150+ pharma and medical vendors achieving 100% audit accuracy.
- Improved product master data integrity and reporting accuracy to influence leadership decision making.

INDEPENDENT PROJECTS

AI-powered Conversational Prototype—Meditation and Healthcare Wellness Companion for *Calm* App

- Designed a functional conversational AI prototype 'Calm Companion' leveraging Google AI Studio to listen, validate emotions and connect users with relevant Calm app content.
- Developed and iterated prompt-engineered conversational flows to translate emotional inputs into structured, context-aware content recommendations, simulating an empathetic AI-guided wellness experience.

Human-Centered Product Design Prototype—Office delivery experience for *Skip* Food delivery App

- Conducted user research to identify key pain points in food delivery experiences, applying human-centered product thinking to design a Figma-based checkout prototype, introducing an 'Office Delivery' toggle to improve office delivery experience and user confidence.

SAP Materials Management (SAP MM) Functional Implementation Simulation

- Completed SAP MM (S/4HANA) functional implementation simulation, mapping end-to-end procure-to-pay workflows by designing current-state/future-state processes and configuring core modules including plants, storage locations, purchasing structures, material/vendor masters, PR/PO cycles, RFQ, release strategy, and account determination.
- Developed and executed comprehensive test lifecycle activities (unit, integration, regression, and UAT support) by creating structured test scripts to validate procurement workflows and ensure process integrity across configured SAP MM scenarios.

EDUCATION

Master of Business Administration | *Capital University, USA* | 2019

Bachelor of Arts in Management | *Ohio Wesleyan University, USA* | 2016

PROFESSIONAL CERTIFICATIONS

Anaplan Professional Model Builder | 2025

Advanced Certified Scrum Product Owner, A-CSPO® | 2025

Certified Business Analysis Professional, CBAP® | 2025

Certified Scrum Product Owner, CSPO® | 2024

IBM Enterprise Design Thinking Practitioner | 2024

PROFESSIONAL MEMBERSHIPS

Founding Member | Senior Executive Healthcare Think Tank

Senior Advisory Board Member | The IA FORUM

Senior Member | IEEE

Member | IEEE Computer Society

Member | International Institute of Business Analysis - IIBA
