SUMMARY

Manufacturing and Mechanical Engineer with hands on experience in utilities engineering, process optimization, and large-scale industrial systems. Skilled in Lean Manufacturing, preventive maintenance, and engineering tools including AutoCAD, ANSYS, SolidWorks, SAP, Excel, Power BI, and Minitab. Seeking Manufacturing/Industrial Engineering roles.

EDUCATION

Missouri University of Science and Technology <i>Master's in Engineering Management / Industrial Engineering</i>	Dec 2026 GPA: 3.67/4.0
NED University of Science and Technology <i>Bachelor's in Mechanical Engineering</i>	Sept 2018 GPA: 3.11/4.0

EXPERIENCE

Operations Support Assistant <i>International Students Office, Missouri University of Science and Technology</i> • Supported daily operations using Excel and databases, improving response efficiency by 15 percent • Streamlined administrative workflows by applying process mapping and continuous improvement concepts	March 2025 – Present Rolla, MO, USA
Research Assistant <i>Missouri University of Science and Technology</i> • Performed CFD-based thermal and phase-change simulations for the Freeze Plug (MSFR) project using ANSYS Fluent, focusing on solid-liquid phase change behavior. • Mushy-zone modeling, and conjugate heat transfer to analyze melting-front evolution and plug opening time for passive reactor safety systems.	June 2025– March 2026 Rolla, MO, USA
Assistant Manager Projects <i>Artistic Denim Mills Ltd</i> • Led execution of large-scale CAPEX industrial utility project • Designed and reviewed HVAC and industrial utility systems using AutoCAD and Revit • Managed CAPEX/OPEX planning and vendor evaluations using Excel and SAP S/4HANA • Key Projects: 150,000 GPD Effluent Treatment Plant , 5 MW Solar Power Plant	Nov 2023– Dec 2024 Karachi, Pakistan
Senior Executive Officer (Projects) <i>Feroze 1888 Mills Ltd</i> • Implemented TPM and Lean Manufacturing initiatives, sustaining 85 percent + 5S audit scores • Performed root cause analysis (RCA) to improve equipment reliability using CMMS. • Supported facility upgrades to meet cGMP and NFPA standards • Key Projects: 2 MW Gas Engine (Caterpillar 3512H) , 2,000 GPM Fire Hydrant System	Dec 2021– Nov 2023 Karachi, Pakistan
Mechanical Engineer <i>Artistic Denim Mills Ltd</i> • Designed 300 RT vapor absorption chiller layouts and BOQs using AutoCAD • Technically evaluated and finalized 120 RT electric chillers with vendors using SAP • Conducted energy audits and steam analysis using Excel and Power BI • Improved preventive maintenance practices and technician training using CMMS • Key Projects: 300–400 RT Chillers , 20 TPH Gas Boiler	Feb 2019– Aug 2021 Karachi, Pakistan

SKILLS

Lean Six Sigma (DMAIC), TPM, 5S, RCA, Preventive Maintenance, CMMS, AutoCAD, Revit, SolidWorks, ANSYS (Thermal/CFD), MATLAB, Simulink, Minitab, Excel, Power BI, SAP S/4HANA, MS Project, Primavera P6

CERTIFICATIONS

- Lean Six Sigma Black Belt — AutoCAD 2D/3D — Power BI — ANSYS Fluent (Heat Transfer CFD)
