

Samuel Ashaolu

Dallas, Texas • ashaoluayodele@gmail.com • (912) 541 1038 • <https://www.linkedin.com/in/ashaolu-samuel>

Education

Georgia Southern University, Statesboro, GA
M.S., Information Technology [Cybersecurity], December 2022

Osun State University, Osun state, Nigeria
B.Eng., Electrical & Electronic Engineering, September 2019

Lagos State Polytechnic, Lagos state, Nigeria
Associate Degree, Electrical & Electronic Engineering, September 2012

Work Experience

Ernst & Young US. LLP., Dallas, TX
Cybersecurity Consultant (Information Security Analyst) (January 2023 – Present)

- Implemented effective cybersecurity plans and maintained enterprise firewalls against unauthorized modifications gaining an over 80% rate on overall company data security
- Encrypted data transmissions to conceal confidential data across the internet protocol to prevent digital transfer anomalously whilst reducing identified computer malware by 40
- Conducted security QA assessments of clients endpoint devices containing over 500+ users in ensuring a safe cyberspace for clients business operation
- Executed a complete deep-dive vulnerability assessment for over 500+ network assets using Tenable agent scans, Rapid7, Qualys to air-tight clients cybersecurity posture

Ernst & Young US. LLP., Dallas, TX
Cybersecurity Intern (June – August 2022)

- Executed quality assurance checks remotely on network and endpoint assets for a 350,000 sq. ft. plant in conformity with site name, location, device type, model, and IP addresses
- Performed technical updates on the Nozomi IDS Interface to Identify and classify various OT assets: PLCs, HMIs, networking devices in optimizing runtime efficiency
- Initiated sensor tuning exercise, labelling and identification of over 500 assets and multiple devices, developed and exported raw data into excel and data visualization on PowerBI.
- Analyzed thousands of PCAP data from cyber monitoring tool like Nozomi, Global Protect and CrowdStrike to investigate threat gaps and provide technical recommendations for client

Georgia Southern University, Statesboro, GA
Graduate Research Assistant (January 2021 – December 2022)

- Managed government documents database sent over FTPS network protocol and perform scientific research in cyber security, information security and wireless network engineering
- Executed research projects presentation using python programming and Linux scripting relative to smart contracts, blockchain technology and ethereum to tech industry experts
- Published and co-authored a research paper and book article relative to the Principle of blockchain, smart contract and emerging technologies

Klasha Fintech Company, Lagos state, Nigeria
Tech. Sales Engineer (Remote) (May 2021 – May 2022)

- Executed and hosted an onboarding presentation and SPIN negotiation with an European client in adopting Klasha's payment gateway portal across the African market whilst providing IT network support services to our Lagos office
- Secured the acquisition and onboarding of two core B2B and FMCG business clients yielding an over 10% rise in companies profit and revenue turnover
- Provided technical design and support for 3 major clients providing solution based designs to maximize client production

SENRI Limited, Lagos state, Nigeria
Network Security Engineer (March 2020 – April 2021)

- Deployed and created user accounts and group policy on windows active directory; managed VMware systems and mapping network devices for over 40 end users
- Performed network scripting on Linux and Ubuntu OS and monitored Cisco switches, firewalls AP's and prepared program for host IP allocations and network security
- Delivered sales presentations pitch to national and regional sales managers in negotiating B2B, FMCG sales automation software and onboarded three accounts in less than 4 months

Total E & P Nigeria Limited, Lagos state, Nigeria
IT Network Support Intern (March – August 2018)

- Deployed over 50 workstation devices executing TCP/IP, DNS, DHCP, VPN protocols, Wi-Fi networked printers, file share and network security protocols across multiple devices
- Resolved enterprise network issues; managed router and switches for over 30 users and clients
- Installed and managed cisco network devices with over 100 LAN port termination points for 20 users, maintained server and end-user internet connectivity and IP domain administration

RAVE 91.7 FM Broadcasting Station, Osun state, Nigeria

Junior Network Administrator Intern (October – November 2017)

- Installed and configured windows network operating system with BIOS and firmware updates
- Configured peer to peer networks reviewed data logs and software upgrade for network devices
- Troubleshoot and maintained network devices and infrastructure including series switches, routers, IDS/IPS firewalls configuration with network nodes scripting

Kresta Laurel Limited, Lagos state, Nigeria

Summer Engineering Intern (March – August 2015)

- Troubleshoot and reset a corrupted windows operating system for system recovery
- Assisted in the installation of 20kVA online industrial uninterruptible power systems, operated UPS boot sequence digitally for 6 machines and monitored microcontroller interchange
- Worked with 4+ internal audit groups to resolve regulatory issues and tech-compliance

Radio Nigeria Broadcasting Station, Lagos state, Nigeria

Telecoms Network Engineer (January – December 2013)

- Monitored new developments in computer, hardware, and network system vulnerabilities
- Operated AM transmitters, 4G wireless communication devices transmitting radio antennas beaming signals to over 100 countries of the world
- Performed fault tracing on computer circuit boards and embedded chips, repaired over 20 computers, executed testing on PC hardware parts to specifications

Certifications

- International Information System Security Certification Consortium (ISC2) – Certified in Cybersecurity. Certification number: 1710151
- Collaborative Institutional Training Initiative (CITI) Health Information Privacy and Security (HIPS) – Certified in Information Privacy and Security. Certification number: 57910325
- Collaborative Institutional Training Initiative (CITI) IA Doctorates Security Certification. Certification number: 57910324
- Huawei Network Security Certification: BTS and Microwave Telecoms Installation. Certification number: 17WGNCR003028
- Nozomi Networks Certified Technical Professional (NNCP)
- Nozomi Networks Certified Engineer (NNCE)

Technical Competencies

- Cybersecurity: Threat hunting, Vulnerability Management, Network Monitoring
- Cisco R&S protocol infrastructure, Penetration testing and SEIM management
- Strong knowledge in WAN, LAN, ACL, TCP/IP, DNS, DHCP, VPNs routing protocols
- Experience working with Layer 2 and 3 protocols networking with IP
- Strong knowledge and understanding of OSI model TCP/UDP protocols
- Network security, proficiency in sales force CRM and hubspot CRM sales software
- Linux OS, VMware, IT Network Support, and network environments
- Computer skills in Microsoft suite, SPSS, R programming and Power BI
- Python and Splunk, Wireshark, CompTIA, N+, Windows scripting or PowerShell
- Leadership, team work and strong negotiation and customer relation skills

Published Papers

- **IEEE Journal:** Ashaolu, S., Chen, L., (2023) Blockchain Project Workflow Execution for Trustless Operations. *American Council on Science and Education*. IEEE CPS Publications
- **Research Paper:** Ashaolu, S., Lawal M., (2022). An Experimental Approach towards PV-Based Solar System Sizing for an Engineering Laboratory. *Tanzania Journal of Engineering and Technology*, 41(2): 98-102 [209 Accesses]
- **PlumX Metrics Journal:** Ashaolu, S., Hayden, W., (2022). *Food Traceability System Based on Hyperledger Fabric Blockchain*. Georgia Southern University Annual Research Symposium 2022, Statesboro GA - **[April 25, 2022]**

Talk in Conferences

- *“Blockchain and Smart Contract Security.”* The 2022 World Congress in Computer Science, Computer Engineering & Applied Computing (CSCE) and The 2022 International Conference on Security and Management (SAM ’22), Nevada, Las Vegas - **[July 25-28, 2022]**
- *“Food Traceability System Based on Hyperledger Fabric Blockchain.”* Georgia Southern University Annual Research Symposium 2022, Statesboro GA - **[April 25, 2022]**
- *“Blockchains and Smart Contracts: Applications, Security and Performance.”* Georgia Southern University Annual Research Symposium 2021, Statesboro GA - **[April 23, 2021]**
- *“PV Based Solar System Sizing Techniques.”* Osun State University, Osogbo, Nigeria. IEEE Research Conference Summit, Osun state, Nigeria - **[October 20, 2019]**

Book Publication

- **Book Publication:** Ashaolu, S., Chen, L., (2023). Principles and Practices of Blockchains. Springer Nature Publications, pp 63-90 [288 Accesses]

Invitation to Review Scientific Journals

- Email Invitation from the Assistant Manager [Bentham Science Publisher] to review [AI in the Social and Business World: A Comprehensive Approach...”]
- Email Invitation from the Editorial Director [Recent Advances In Computer Science and Communications] to review [Professional Ethics, Challenges and Opportunities for Blockchain Technology In Healthcare Sector: A systematic Review]
- Email Invitation from Research Publishing International LTD, England, UK to review and animate my research paper for younger researchers on [An animation about Blockchain Project Workflow Execution for Trustless Operation]

Invitation to speak at Int’l Organisations on Security Talks

- Invitation to attend and present at the Youth Shaping Sustainable and Innovative Solutions in Technology and Global Security at the 2024 United Nations Economic and Social Council Youth Forum at the United Nations Headquarters in New York from 16 to 18 April 2024. Conference hosted by the Department of Economic and Social Council (DESA). Invitation letter issued and signed by The President of the Economic and Social Council.
- Invitation to attend and present at the 79th United Nations General Assembly Youth Summit – Summit of the Future Actions Days for Youths Developing Sustainable and Innovative Solutions in Cybersecurity at the United Nations Headquarters in New York from 20 to 21 September 2024. Conference hosted by the Department of Economic and Social Council (DESA).
- Invitation to attend and present at the World Bank Youth Summit – Titled: From the Ground Up, Youths Developing Local Solutions to Drive Global Innovation Impact in Technology and International Security at the World Bank Headquarters in Washington DC from May 25 to 26 2023
- Certification of Presentation at the 17th Annual International Human Rights Summit 2022. Titled Youth Making it a Reality in Developing Innovative Solution for Global Security July 6 to 8, 2024. Conference hosted by the Department of Economic and Social Council (DESA) Chambers at the United Nations Headquarters in New York.
- Conference brochure showing my scheduled talk on Blockchain Project Workflow Execution for Trustless Operations at the 2022 World Congress in Computer Science, Computer Engineering and Applied Computing (CSCE) organized by the American Council on Science and Education hosted in Las Vegas, USA from July 25 to 28, 2022
- Poster presentation on Blockchain & Smart Contract – Application, Performance and Security in Cybersecurity hosted by Georgia Southern University, Statesboro, Georgia at the 2021 University Research Symposium
- Poster presentation on Food Traceability System Based on Hyperledger Fabric Blockchain hosted by Georgia Southern University, Statesboro, Georgia at the 2022 University Research Symposium – Poster available online
- Certification of presentation of talk titled Canada Youth Congress on Youths and Innovative Solutions to Global Security, Rights & Privacy, hosted at the University of British Columbia and organized by Voice for Rights International Association Vancouver, BC, Canada on November 18 to 19 2022
- Certification of presentation of talk titled International Security Awareness organized by Hoover Institution Summer Policy Bootcamp and hosted by Stanford University, California. on August 13 to 17 2023. Received certification for Summer Fellow at Stanford University by Hoover Institution, CA
- Certification of attendance for conference at the Leadership Institute Training Bootcamp on Politics and International Security hosted at the Leadership Institute Headquarters Arlington, Virginia on October 2022. Received certificate

Research Grants

- ISC^2 Centre for Cybersecurity (Cybersafe) – [2023] [\$3,000] Graduate Research grant
- Research Grant – [2022] [\$ 1,600] Graduate Student Organization, Georgia Southern University
- Higher Education Fund – [2022] [\$1,500] United States Department of Education
- Cybersecurity Research Award Grant – [2021] [\$ 1,000] Gulfstream Aerospace Corporation, Savannah GA

Travel Grants

- Eagle Elevation Travel Fund – [2022]
[\$ 500] Georgia Southern University, Statesboro, GA
- Graduate Student Professional Development Travel Fund – [2022]
[\$ 625] Jack N. Averitt College of Graduate Studies, Georgia Southern University

Graduate Scholarship

- Georgia Southern University Department of Information Technology Research Assistantship
- Applied, won and received a research assistantship due to my outstanding career trajectory which included research and paper publication, proficiency in cutting-edge applications and technical software tools, and full time and internship experience which are relevant in the field of Information Technology and Cybersecurity research
 - Received a scholarship valued at over \$50,000 including a tuition waiver and a monthly stipend.

Fellowship

Fred J. Hansen Fellowship – Hansen Leadership Institute

- Applied, won and received a \$14,000 fellowship to attend an exchange program at the University of San Diego in 2019 returning back to Nigeria to further extend that knowledge in creating Innovative Technological solutions to solve literacy tech-based problems in Nigeria and Marginalized communities

Judged Others Work

- **NFTE World Series of Innovation – January 25 & 26 2024 – Dallas, TX**

Based on my technical experience and expertise in the field of innovative technology and cybersecurity, I was selected to serve as a judge for the initial round and final round of Dallas state based competition of which college students and high schools (over 50) designed tech-based solutions to solved socio-economic challenges within the United States – solutions were focused on health care, national security, education, job creation, politics etc. In the final round, the top 3 best candidates were awarded for the feasibility and impact of their solutions (I have email evidence)

- **Hansen Leadership Institute – May 2024 – Sandiego, CA**

As a previous fellow of the Hansen Leadership Institute, I was selected to judge (over 100 applicants) from different African countries to partake in 3-weeks global exchange program at the University of San Diego, CA to acquire global knowledge from the United States, returning back to their home countries in building innovative solutions to solves real-world problems

Awards

- EY Cyber Technical Excellence Award – 2nd Runner up [2024]
[\$1,000] Designed a proof of concept cyber solution to solve mobile data breach and workforce management security
- Best Research in IT Cybersecurity Award – Graduate Category [2021]
Annual Research Symposium
Georgia Southern University, Statesboro, GA
- Fred J. Hansen Leadership Award – [2019]
Exchange Visitor and Leadership Scholar
Hansen Leadership Institute, San Diego, CA
- Regional Leadership Fellow Award – [2020]
Young African Leadership Initiative West Africa, Accra, Ghana
- Overall Best Team Leader Award – [2018]
Training and Development Institute (TDI Global) National Conference
Total E & P Nigeria Limited
- IT Certification Scholarship – [2018]
Cisco Certified Network Associate, CCNA
Nigerian Institute of Information Technology [NIIT]
- Recognition and Certificate of Merit Award – [2017]
General Secretary, Osun State University, Osogbo, Nigeria

Professional
Trainings

- Cybersecurity - Next Generation Security Operations - September 2024
- Cybersecurity - Identity and Access Management - August 2024
- Data Protection on Cyber Engagements - What you need to be aware of - August 2024
- Data Protection and Information Security - June 2024
- Forensics Cyber Shadow - April 2024
- Computer Forensics Fundamentals - February 2024
- Cybersecurity Introduction - February 2024
- Standardizing AI Security - February 2024
- Unleashing Industry Opportunity with Generative AI - October 2023
- Data Protection Fundamentals - July 2023
- Machine Learning Clustering on Python - June 2023
- Protecting Mobile Data and Devices - July 2022
- Password Security - July 2022
- Incidence Reporting - July 2022
- Defeating Social Engineers - July 2022

Professional
Memberships

- The Institute of Electrical and Electronic Engineers [IEEE]
- Nigerian Society of Engineers [NSE]
- The Internet Society
- National Society of Professional Engineers [NSPE]
- National Society of Black Engineers [NSBE]
- Black Professionals in Tech Network [BPTN]
- Centre for Cyber Safety and Education
- ISC2 International Information System Cybersecurity Membership

Leadership
Experience

Voice for Rights International, BC, Canada
International Peace Ambassador – [2023]

The Internet Society
Youth Ambassador Program – [2023]

North America Students for Liberty
Local Coordinator and Prometheus Fellow – [2023]

Georgia Southern University, Statesboro, GA
International Student Ambassador – [2022]

Georgia Southern University, Statesboro, GA
University Website Committee Member – [2022]

Georgia Southern University, Statesboro, GA
Student Outreach Committee Member - [2022]

Georgia Southern University, Statesboro, GA
Graduate Peer Mentor – [2021]

Young African Leadership Initiative, Accra, Ghana
Regional Leadership Fellow West Africa – [2020]

Hansen Leadership Institute, San Diego CA
International Visiting Fellow [2019]

Osun State University – General Secretary, Osun state, Nigeria
Electrical & Electronic Engineering Student Association, EEESA – [2017]

Slum Achievers Foundation, Lagos Nigeria
Public Relations and Team Lead – [2015]
