Arizona State University, Tempe, AZ

May 2024

3.48 GPA

Relevant coursework: Advanced Project Management, Data-Driven Decision-Making, Enterprise Operation

B.E in Civil Engineering

St Peter's Institute of Higher Education & Research, Chennai, India

Aug 2020

3.00 GPA

Relevant coursework: Structural Analysis & Design, Construction Management, Principles of Management, Mechanics & Graphics.

SKILLS

Technical Skills

Quantity take-offs, On-Screen Takeoff, Submittals review, Interpret construction drawings, Trigonometry applications, Procurement planning, MS Office, Project Planning, Microsoft Excel, Tableau, SAP.

Software

Bluebeam Revu, Contractor Foreman, Procore, Primavera P6, AutoCAD, 2D & 3D Modelling, Tekla.

EXPERIENCE

Signature Projects, Phoenix AZ: Project Engineer

June 2025 – Present

- Managed scopes across commercial TI, ground-up, multifamily, and warehouse renovation projects (\$500K–\$3M), contributing to budgeting, procurement, scheduling, and field coordination across multiple project phases.
- Led a \$250K commercial project as Assistant PM, overseeing buyout, cost control, and schedule execution; delivered \$30K profit (~12% margin) while finishing ahead of budget and schedule.
- Performed quantity take-offs, CSI division breakdowns, bid packaging in Pantera, and subcontractor leveling to support competitive procurement and prevent scope creep; delivered full \$1.5M warehouse renovation pricing within one week.
- Administered contracts, RFIs, submittals, change orders, and compliance documentation in Procore, ensuring alignment with contract scope, budget, and schedule while maintaining site readiness.
- Developed trade sequencing schedules integrating material lead times, workforce durations, and inspections; coordinated multi-agency inspections for HVAC, fire alarm, fire sprinkler, Ansul suppression, and gas systems, achieving CO 10 days ahead of target.
- Enforced jobsite safety standards (PPE compliance, site controls) and maintained proactive communication with clients and subcontractors through weekly reporting and real-time issue resolution.

Blue Vine Construction LLC, Phoenix AZ: Project Engineer

July 2024 – May 2025

- Supported Project Managers by maintaining procurement logs, tracking purchase orders, and aligning materials with project schedules.
- Managed 20+ change orders, estimating, bidding, and cost tracking to control budgets and reduce cost overruns by 15%.
- Assisted in reviewing and approved 50+ shop drawings and submittals ensuring compliance with specifications and design intent.
- Conducted 10+ punch list walks, managed closeouts, and handled warranty documentation.
- Coordinated Division 9 submittals with 30+ vendors for metal framing, drywall, ACT, painting, and wall protection.

Blue Vine Construction LLC, Phoenix AZ: Project Engineer (Co-op & Intern)

May 2023 – May 2024

- Utilized my expertise in reading and interpreting blueprints and specifications to support project planning and execution.
- Coordinated and tracked 50+ RFIs with field foremen, design teams, architects, and external stakeholders.
- Managed labor schedules for crews of 60+ workers alongside superintendents and project managers.
- Assisted in punch list management, ensuring 95% on time completion for public school and healthcare projects.

Strong Hold Structures Pvt Ltd, Kochi KL: Project Engineer

Aug 2020 – Feb 2022

- Managed PT slab construction, reviewing blueprints and coordinating material delivery, reducing the project timeline by 20%.
- Oversaw material logistics across five sites and inspected lift walls for leakproof integrity, optimizing project efficiency.
- Led dog-legged staircase construction, ensuring spec compliance, quality and achieving 15% higher compliance and 10% efficiency.
