

DILAN JACOB

Supply Chain Optimization Specialist

Fort Lee, NJ | (781) 971-2703 | dilanjacob9997@gmail.com | linkedin.com/in/dilanjacob

Supply Chain Specialist with expertise in demand forecasting, inventory management, and strategic replenishment. Drives significant improvements in supply chain efficiency and product availability through data-driven analysis and cross-functional collaboration. Proven leader in supplier relationship management and KPI optimization, leveraging advanced ERP/MRP systems and analytics to achieve impactful business outcomes.

Core Expertise

Supply Chain Optimization	Demand Forecasting Analytics	Inventory Management Strategies
Supplier Relationship Management	Cross-Functional Collaboration	ERP System Proficiency
Data-Driven Decision Making	Strategic Planning Reporting	Replenishment Planning
Assortment Planning	KPI Performance Monitoring	Distribution Network Analysis

Professional Experience

Regional Supply Planner/Buyer, Weee Inc, Clifton NJ | **Dec/2021-Present**

- Analyzed sales trends, historical demand patterns, and inventory performance across 4 product categories to support forecasting and inventory optimization decisions.
- Developed and maintained demand and replenishment forecasts using sales and inventory data, reducing excess inventory by 15% while maintaining target service levels.
- Monitored key supply chain KPIs including in-stock rates, inventory turns, stockout frequency, and sales performance, implementing corrective actions that improved in-stock availability by 10%.
- Evaluated inventory positions across regional distribution networks to identify risks, imbalances, and replenishment opportunities, improving product availability and supply continuity.
- Partnered with Demand Planning, Supply Chain, Merchandising, and Operations teams to support inventory planning for promotions, seasonal demand shifts, and new product launches.
- Conducted scenario-based and ad-hoc analysis of demand and inventory trends to support cross functional decision making.
- Managed relationships with 40 vendors, analyzing lead times and delivery performance to ensure timely replenishment and inventory availability.

Quality Assurance Engineer, Briggs Engineering and Testing, Rockland MA | **Jul/2021-Nov/2021**

- Conducted QA inspections to ensure engineering and production compliance.
- Supported project managers with timeline tracking, documentation, and progress reporting.

Education

Master of Science Engineering Management, Northeastern University **Boston MA, 2021**
