

ADITH SHABARISH

www.linkedin.com/in/adith-shabarish | +1-3479084203 | adithshabarish13@gmail.com

Sustainability and climate risk analytics professional with 10+ years of experience in financial services, technology and net-zero advisory consulting. Proven expertise in leading full scope GHG inventories, life cycle assessments, climate risk modelling, and regulatory aligned ESG reporting processes. Passionate about unlocking sustainability as a value creation lever to drive operational impact.

Strengths and Competencies

CLIMATE RISK & MODELING

- Transition Scenario Modeling
- Financial Stress Testing (DFAST)
- Scenario Analysis
- Portfolio risk quantification
- Financed Emissions (PCAF)
- Loss Forecasting (PD, EAD)

REGULATORY & DISCLOSURES

- ISSB ; IFRS S2
- CSRD ; EU Taxonomy
- CDP, GRI, SASB, SFDR
- PCAF
- SB 253 ; SB 261
- IEA ; IRENA ; NGFS Scenarios
- SBTi Target Setting

DELIVERY & PRACTICE BUILDING

- Project Management
- Stakeholder Management
- Budgeting & Forecasting
- Staffing & Utilization Measurement
- Business Development
- Methodology Design

Sustainability & Climate Risk Work Experience

❖ **Global Association of Risk Professionals (GARP)**

AVP, Sustainability and Climate Risk

May 2023 – Feb 2026

- Led the internal data collection across 12 global sites for GARP's inaugural GHG accounting baseline: estimated impact of org. footprint across 7 material Scope 3 categories.
- Conducted materiality assessment surveys to shape GARP's first GRI & CDP report rationale.
- Developed GHG accounting case frameworks aligned with GHG Protocol and PCAF attribution methodologies for the GARP SCR exam ; top 10% item performance statistics across exams.
- Benchmarked 10+ GHG platforms for methodology transparency and deployment readiness.
- Researched and translated sustainability, climate , and water risk quantification methodologies into structured analytical guidance aligned with evolving disclosure standards.

❖ **CampMonk**

Consultant, GHG Accounting

Sep 2023 – Dec 2023

- Collected data and calculated CampMonk's GHG/carbon emissions (across scopes 1, 2, and 3).
- Assessed 8 material Scope 3 categories to compile a comprehensive GHG protocol aligned accounting report.
- Set GHG reduction targets using SBTi and compiled carbon reduction strategies ; est. 38% reduction to baseline w/ supporting cost analyses.

❖ **Columbia University Irving Medical Center (CUIMC)**

Project Manager, GHG Accounting

Jan 2023 – May 2023

- Led a team of 5 to deliver full Scope 1/2/3 GHG inventory for a major academic medical center; coordinated with operational stakeholders across 21 labs and clinical spaces to confirm fuel usage and electricity consumption sources.
- Built multi-tab Excel model with raw data ingestion, VLOOKUP-driven emission factor application, and CO₂/CH₄/N₂O breakdowns by source to identify hotspots and mitigation measures.
- Modelled near-term and long-term SBTi aligned reduction targets to a 2050 net-zero pathway.
- Findings published in Columbia University's Sustainable University Annual Report.

❖ **Radiance Renewables**

Lead Consultant, ESG Reporting

Sep 2022 – Dec 2022

- Developed the firm's inaugural ESG Report in accordance with the GRI Standards, including building the narrative, structuring the report, and referencing 30+ disclosures to the GRI2 standards and SASB Index.
- Conducted a materiality assessment, stakeholder engagement, and developed a basic sustainability strategy ; identified 10 priority topics across stakeholder and societal axes.
- Collected and analyzed ESG data, and visualized key data points such as employee diversity, pay equity, GHG emissions, etc.

ADITH SHABARISH

❖ Nespresso

Lead Consultant, Life Cycle Assessments

Sep 2022 – Dec 2022

- Performed cradle-to-grave comparative LCA on compostable vs. aluminum coffee pods per ISO 14040/14044 standards ; quantified embodied carbon, water use, and EOL emissions across material substitution scenarios.
- Co-authored a whitepaper documenting analysis methodology and results.

Financial Services and Technology Work Experience

❖ Citigroup – Credit Analytics, Data Governance and Machine Learning

AVP (promoted from Manager and Assistant Manager)

Oct 2013 – Aug 2022

- Spearheaded card value proposition restructuring for a \$10B commercial portfolio; led end-to-end process including market research with Deloitte, conjoint survey design with Concentrix, offer set modeling, full PnL walk, and finance approval rounds. Generated \$360MM incremental sales ; \$60MM revenue impact.
- Closed \$80MM contract restructuring for a major retail portfolio by demonstrating analytics value through work samples and live insights - extended 5-year mandate, grew team from 3 to 7.
- Directed enterprise data governance for \$30B asset migration, standardized QA controls, validation workflows, and documentation protocols.
- Designed Customer LTV model using hybrid benchmarking of LTV, CAC, credit limit, sales patterns, and best-customer segmentation for an electronics retail portfolio.
- Built early warning attrition system using behavioral indicators; reduced charge-offs 7% / \$10MM loss avoidance.
- Designed and executed A/B test-and-learn frameworks; built champion-challenger models for offer optimization across acquisition and retention campaigns ; delivered average campaign lift of 18% – 30%
- Automated 50+ reporting dashboards in Tableau; saved 1,000+ hours annually.
- Mentored and trained 1000+ analysts on SAS, SQL, and Excel across campaign and portfolio analytics functions.

Education

- | | |
|---|----------|
| • Master of Science, Sustainability Management, Columbia University | Dec 2023 |
| • Post Graduate Program for Professionals, Management, UCLA | Mar 2019 |
| • Bachelor of Science, Mathematics, Computer Science , Physics | Apr 2013 |

Certifications

- | | |
|---|----------|
| • Lean / Six Sigma Yellow Belt | Dec 2014 |
| • CSRD Fundamentals | Dec 2024 |
| • CSRD Advanced | Feb 2026 |
| • CFA Climate Risk, Valuation & Investing | Apr 2026 |
