Senior Product Designer & Developer with 6+ years leading end-to-end design and development of scalable digital platforms. Leverages UX research, systems thinking, and AI-assisted workflows to improve efficiency, scale content systems, and deliver accessible, high-impact products across distributed user bases.

EXPERIENCE

Product Designer/Developer, University of Wyoming, Laramie, Wyoming

Jan 2025 – Present

24+ statewide platforms · 80K+ annual users · Public sector & agriculture

- Own and lead design and development for 24+ high-visibility platforms across University of Wyoming Extension and the College of Agriculture, serving 80K+ annual users. Act as the primary UX and development authority, defining strategy, architecture, and accessibility, while ensuring platform continuity across distributed teams.
- Define and implement scalable UX systems, reusable layouts, and content architectures that reduce time-to-launch by 30% across major initiatives, including Harvest Wyoming, Senior Nutrition Blog, Homestead Conference, Ag & Art Tour, and Wyoming Bee College, while maintaining WCAG-compliant standards across all properties.
- Leveraged AI-assisted workflows using Claude.ai to audit and restructure large-scale nutrition content, defining taxonomy (categories/tags), improving searchability, and reducing manual content processing time by 100+ hours.
- Lead crisis-response digital delivery for the Wyoming Emergency Hay Assistance platform, enabling rapid statewide coordination; work received public recognition from the Governor of Wyoming and was cited across multiple news outlets for speed and impact.
- Design, build, and ship custom tools, including a livestock gestation calculator in ReactJS, supporting lambing season planning for sheep and goats, and reducing design-to-engineering rework by 32%.
- Mentor and manage a Web Design Intern, setting UX and design standards, guiding page development for Barnyards & Backyards, and reviewing deliverables to ensure consistency, accessibility, and alignment with Extension-wide systems.
- Received the ACE Professional Conference Bronze Award for design and development of the Homestead Conference website, recognized for excellence in digital communications.

Product Designer/Researcher, Greenstand, Remote, U.S.

Apr 2023 – Dec 2024

Global tree-tracking & environmental fintech · Accessibility-first design systems

- Led UX design and research for core product workflows, including tree capture, matching, monitoring, and verification, shaping end-to-end user flows for globally distributed contributor groups.
- Designed and scaled an accessibility-tested design system, standardizing typography, color, and component patterns to improve cross-product consistency and usability.
- Designed a digital wallet experience for gifting and managing tree tokens, improving clarity and trust to support user adoption and engagement.
- Improved tree planting and monitoring efficiency by 28% by designing a data-rich web mapping experience that streamlined search, comparison, and decision-making.

UX Design/Research Co-op, The Jackson Laboratory, Bar Harbor, Maine

Jul 2022 – Dec 2022

Enterprise scientific e-commerce · 1.5M+ global users

- Conducted user research to identify pain points in experimental mice search and pricing, contributing to a 68% increase in user satisfaction.
- Designed user flows for mobile pricing screens, improving navigation and usability for 1.5M+ global users.

- Analyzed user feedback using Maze and Figma, translating insights into design improvements that enhanced engagement and efficiency; collaborated with cross-functional teams in an Agile environment and presented findings to senior leadership to inform product decisions.

UI/UX Designer, Freelance, Remote

Apr 2019 – Jul 2021

B2B/B2C manufacturing platform · Building materials e-commerce

- Delivered end-to-end UX and UI design for a manufacturing (B2B/B2C) platform and a building materials e-commerce client, translating business requirements into production-ready digital experiences.
- Increased conversion rates by up to 30% for the manufacturing platform by optimizing checkout flows, improving product discovery, and conducting usability testing to identify friction points.
- Designed user interfaces for a building materials e-commerce platform and conducted WCAG-compliant accessibility audits, translating findings into prioritized design improvements and more consistent user experiences.

Deputy Manager, Digital Banking, ICICI Bank, New Delhi, India

Jun 2016 – Aug 2018

Mobile banking & internal financial systems

- Supported UX research and usability testing for mobile banking and internal financial systems, analyzing user feedback and behavioral data to identify usability gaps and friction points.
- Implemented research-driven interface improvements across key user flows, increasing user satisfaction by 36% and improving overall usability.

SKILLS & METHODS

Design Tools: Figma, Adobe XD, Axure, Illustrator, Webflow, Miro, Mural, FigJam

Development: ReactJS, HTML5, CSS3, WordPress, Elementor, SQL, AI workflows (Claude.ai, Notebook LM)

Research & Testing: UserTesting, Maze, Pendo, User Interviews, Usability Studies, A/B Testing, Contextual Inquiry, Affinity Mapping, Thematic Analysis, Journey Mapping, Heuristic Evaluation, Persona

Design Practice: Information Architecture, Interaction Design, Design Systems, Wireframes & Prototypes, Visual & Motion Design, Accessibility (WCAG), Content Design

EDUCATION

M.S. Information Systems, Northeastern University, Boston 2021 - 2023

MBA, Finance & Marketing, Jaipuria Institute of Management, India 2014 - 2016

B.Tech, Electronics & Communication, United College of Engineering & Research, India 2009 - 2013

CERTIFICATIONS & MENTORSHIP

UX Design Certificate, **Google** 2021

Enterprise Design Thinking Practitioner, **IBM** 2022

Mentor, **UXPA** 2025 - Present
