PROFESSIONAL SUMMARY

Experienced Clinical Operations professional with two years of proven excellence in clinical trials. Expertise includes trial scope, timelines, risk assessment, budget management, oversight, and cross-functional coordination. Proficient in implementing and ensuring compliance with Good Clinical Practices (GCP).

WORK EXPERIENCE

- Associate Investigator Grant Analyst | Thermo Fisher Scientific | Hyderabad, India** Apr 2025 - Aug 2025
- Worked with experts to develop investigator grant budget grids for assigned studies in the USA, India, Singapore, and Korea
 - Drafted applicable payment terms and conditions templates for investigator grant budget grids
 - Coordinated internal and external approvals and feedback to investigator grant budget grids and payment schedules
 - Provided support for blocking issues with external clients regarding investigator budget development, processes, and negotiation parameters
 - Worked with internal departments to align site startup activities with investigator grant activities and agreed-upon timelines. Ensures alignment of investigator budget negotiation processes for sites and study activation on a critical path
- Clinical Quality Associate | Novo Nordisk | Bangalore, India** Apr 2024 - Mar 2025
- Ensured compliance with Good Clinical Practices (GCP) through quality oversight of clinical trial operations
 - Conducted site visits with Quality Managers to verify source data integrity and Trial Master File documentation
 - Monitored and resolved SOP and protocol deviations, achieving a 100% timely closure rate
 - Developed and delivered training programs on SOPs and regulatory compliance for clinical teams
 - Led quality improvement initiatives for Clinical Trial Management Systems and performance metrics
 - Managed content and documentation systems (SharePoint, ISOTrain) for regulatory compliance
- Clinical Trial Administrator Intern | Novo Nordisk | Bangalore, India** Oct 2023 - Mar 2024
- Prepared contracts (CDA, CTA), secured necessary signatures, and uploaded them to electronic systems for documentation and archival purposes
 - Customized, translated, and verified country and site-specific SIIC
 - Updated national clinical trial registers with new and updated study-related information
 - Prepared clinical trial application dossiers for Health Authorities (HA) and other competent authorities
 - Managed sponsor's Trial Master File (TMF), including study document review and upload. Also prepared and distributed Site Initiation Visit (SIV) kits according to plans
 - Processed vendor invoices and prepared sponsor TMF documents for long-term archival
- Quality Management Intern | Jubilant Pharmova Limited | Nanjangud, India** Aug 2022 - Jan 2023
- Qualified pharmaceutical equipment in the API manufacturing unit through qualification activities
 - Prepared and executed validation protocols and reports, and executed various installation qualification protocols
